

Secure Mounting Solutions for
the iPad, iPad 2 and the new iPad 3

2012

ErgoMounts

Specialist, manufacturer, distributor, designer and developer of ergonomic computer mounting solutions.

ErgoMounts as the name suggests are a leading specialist manufacturer and distributor of ergonomic computer mounting and storage solutions. At ErgoMounts we are passionate about our products and we understand the need to design and develop solutions according to the ever changing market demands.

ErgoMounts Custom Design Department can both modify existing products and develop from scratch to meet a specific project requirement. ErgoMounts liaise directly with the client and offer site surveys where appropriate by our qualified engineers.

The launch of the iPad, iPad 2 and more recently the new iPad 3 opened up a new range of solutions for ErgoMounts. We quickly realised that the versatility of the iPads meant that the demand and scope for mounting solutions was going to be immense.

Initial enquiries from clients led to us developing the security enclosure for use at RoadShows, Exhibitions and Retail Outlets. This, in turn has developed and we can now offer a diverse range of custom made and bespoke solutions from desk mounts, articulated wall mounts to small footprint workstations.

This brochure illustrates examples of our range of security mounts for the iPad, iPad 2 and the new iPad 3. ErgoMounts also offer a wider range of ergonomic and space efficient quick release mounting solutions for the iPad, iPad 2 and the new iPad 3. Please contact us for specifications and further details:

01252 333326

www.ergomounts.co.uk

Our clients range from the home user to larger organisations within the retail, promotional and medical industry. All our solutions are designed in the UK and are specific to the individual requirements of the project. Our in-house design team will be happy to discuss your requirements.

ErgoMounts Security Enclosure Desktop Stand

incorporating **security features**, speaker holes, and limited access to on/off and sleep mode buttons.

The ErgoMounts secure desktop stand/enclosure is designed to compliment and enhance the performance of the revolutionary iPad, iPad 2 and the new iPad 3.

The unique ErgoMounts anti-tamper security enclosure is manufactured from a single piece of aluminium; each version is designed to the exact dimensions of the iPad, iPad 2 and the new iPad 3.

As standard, each enclosure is provided with the home and power buttons covered and the power/data socket enclosed in the casing (can accommodate both Apple & Griffin connectors). The headphone socket is also accessible as standard, and tiny holes exist so volume can be adjusted and power button operated (a fine stylus is required to fit these holes). Other options (for example covering the headphone socket, providing a stylus hole on the home button cover) are available: please contact us to discuss your individual requirements.

Such exacting design ensures that the security enclosure cannot be removed from the mount making it suitable for use in environments populated by the general public - for example at exhibitions

and in reception areas. They are also ideal as point of sale or digital signage solutions.

Silver finish as standard, black on request.

- Highly aesthetic. Designed to compliment the iPad, iPad 2 and the new iPad 3's sleek curves and contemporary design.
- Enclosure can be customised to suit individual security requirements.
- Stand is bolted to the desk for additional security.
- Enclosure does not interfere with WiFi or 3G / 4G signal.
- Manufactured from a single piece of solid aluminium, CNC machined and finished to the exact dimensions of the iPad, iPad 2 or the new iPad 3.
- Strong, durable, lightweight, aluminium construction.
- Landscape orientation, portrait on request.
- Silver finish as standard, black on request.

Specifications

Orientation:	Landscape (portrait on request)
Max Height:	301mm
Max Depth:	134mm

Product Warranty:	1 Year

ErgoMounts VisionPro 500 Series iPad Security Enclosure

incorporating **security features**, speaker holes, and limited access to on/off and sleep mode buttons.

The EMVP500 Series is a unique revolutionary ergonomic mounting solution for the Apple iPad, iPad 2 and the new iPad 3.

The VisionPro 500 Series iPad Security Mount lets you optimise your iPad, iPad 2 and the new iPad 3 viewing angle or position by providing full 3D ergonomic positioning.

The advanced gas-strut and ball joint allows effortless adjustment to the height, tilt, swivel and orientation of the iPad.

Achieve almost any viewing angle with a quick adjustment or retract the arm to a compact size to increase your work surface area.

A perfect solution for use within exhibitions, reception areas, as point of sale or as digital signage.

The attractive die-cast aluminium body perfectly compliments the sleek curves and design of the iPad, iPad 2 and the new iPad 3.

Available in desk or wall mount fitting, compact, extended or double extended.

Silver as standard, black on request.

- Provides up to 360mm/540mm/720mm (14.1"/21.2"/28.3") reach, 460mm (18.1") height adjustment and 360° rotation around the base.
- +/-57° of monitor tilt and swivel / landscape to portrait movement.
- Gas assisted height adjustment.
- Highly aesthetic, sleek design.
- Casing is exposed to eliminate interference with Wifi.
- Security, anti-tamper device.
- Desk clamp, bolt through desk or wall mount fitting.
- Touch screen stable.
- Enclosure does not interfere with WiFi or 3G / 4G signal.
- Compatible with both the iPad, iPad 2 and the new iPad 3.
- Silver as standard, black on request.

Specifications

Touch Screen Stable:	Yes
Product Warranty:	1 Year

ErgoMounts **FX100 Series** iPad Flush Fit Wall Mount

incorporating **security features**, speaker holes, and limited access to on/off and sleep mode buttons.

The EMFX100 Series is a neat, compact wall mounting solution for the Apple iPad 2 and the new iPad 3.

The FX100 Series Wall Mount is designed to mount the iPad 2 and the new iPad 3 as close to the wall as possible. The iPad 2 and new iPad 3 can be mounted in either a landscape or portrait configuration.

The Ultra low profile attaches the iPad to within 45mm of the wall, whilst its clever design allows quick and easy installation.

The enclosure can be manufactured to integrate a number of security features minimising tampering and interference. Namely the home button, volume control and power button can be blanked off and the power and data socket enclosed in the holder. This ensures that it cannot be removed from the mount enabling it to be used in retail environments for use by the general public.

Available in a Silver finish.

- Neat and compact just 45mm from the wall.
- Wall mount fitting.
- Home button, volume control and power button can be blanked off or stylus holes can be added.
- Security, anti-tamper device.
- Touch screen stable.
- Compatible with both the iPad 2 and the new iPad 3.
- Can be mounted either landscape or portrait.
- Enclosure does not interfere with WiFi or 3G / 4G signal.
- Simple installation.
- Silver finish.

Specifications

Arm Ext.:	45mm
