- Medical grade solution.
- Supports Monitors 12.7Kg.
- Compact but adjustable.
- 360° of swivel.
- Billet Aluminium construction.
- Can be cleaned with "Hospital Grade" solutions (10,000 parts bleach per 1,000,000).

The Double Elite Monitor Arm is a high end medical grade solution that is capable of supporting monitors up to 12.7Kg in weight. This mount allows the monitor to be secured to the pole and pulled out when required. The arm is fully cable managed, gas spring assisted and provides up to 42" of vertical and horizontal adjustment from mount to monitor. This mount also features 1360° of swivel at the pole and a further 180° at the end of the arm independently. The screen can be tilted up to 50°.

This product is made of out billet Aluminium and is powder coated to produce a durable, lasting finish.

Manufactured to order...

All of our Medical Grade Mounting Solutions are manufactured to order by our partners in the United States. These are then air freighted to us before being hand inspected and assembled by our talented team of technicians at our headquarters in Hampshire, United Kingdom. This allows us to offer 100's of combinations on our products as well as bespoke design but at a much shorter lead time to our competitors who often rely on Far East manufacturing.

Installation & Maintenance

The ErgoMounts Planned Preventative Maintenance Programme (PPM) covers bi-annual visits from one of our highly trained technicians. They ensure all of our arms are working as intended and replace or repair any worn parts. This often extends the working life of the mounts by several years resulting in significant savings. Contact us to find out more about our installation and maintenance plans.

Interested In Selling Our Products?

We're always looking for new businesses to take on and sell our exciting portfolio of products. Our resellers receive a range of exclusive benefits including combined marketing, trade accounts and access to our team of experts.
