- Billet Aluminium construction.
- Can be cleaned with “Hospital Grade” solutions (10,000 parts bleach per 1,000,000).

The ErgoMounts Ultra 180 EV65 Monitor Pole Mount Series is an innovative solution to modern medical grade, sit-stand workstations. With a weight capacity of 14.5Kg this mount can easily hold most modern LED or LCD Monitors. This unique and patent pending arm is fully counter balanced, making lifting or lowering your monitor effortless. The Ultra 180 EV65 can stow close to the pole, making it the perfect choice for tight spaces. Cable channeling through the arm assembly. Engineered for years of reliable service and quiet operation. This model is mounted to a pole.

The Ultra 180 EV65 arm is manufactured out of Billet Aluminium before being powder coated to provide a hard wearing and long lasted finish. Designed with medical environments in mind this arm can be regularly cleaned with hospital grade solutions, 10,000 parts bleach per 1,000,000.

### Manufactured to order...

All of our Medical Grade Mounting Solutions are manufactured to order by our partners in the United States. These are then air freighted to us before being hand inspected and assembled by our talented team of technicians at our headquarters in Hampshire, United Kingdom. This allows us to offer 1000's of combinations on our products as well as bespoke design but at a much shorter lead time than our competitors who often rely on Far East manufacturing.

## Installation & Maintenance

The ErgoMounts Planned Preventative Maintenance Programme (PPM) covers bi-annual visits from one of our highly trained technicians. They ensure all of our arms are working as intended and replace or repair any worn parts. This often extends the working life of the mounts by several years resulting in significant savings. Contact us to find out more about our installation and maintenance plans.
