Commercial

- Medical grade solution.
- Monitors up to 8.16Kg
- Billet Aluminium construction.
- Can be cleaned with “Hospital Grade” solutions (10,000 parts bleach per 1,000,000).

The ErgoMounts Ultra 510 Monitor Pole Mount is a medical grade computer workstation designed to fit on existing pole based installations. With a weight capacity of 8.16Kg this mount can easily hold most modern LED or LCD Monitors.

In terms of movement, the Ultra 510 can swivel the monitor through 360° and tilt the screen up to 90°. The monitor is held close to the mounting arm and two handles on either side of the base can tighten the monitor into position. The height of the screen can be adjusted along the 4” stainless steel rails mounted to the top joint.

The Ultra 510 is manufactured out of Billet Aluminium before being powder coated to provide a hard wearing and long lasted finish. Designed with medical environments in mind this arm can be regularly cleaned with hospital grade solutions, 10,000 parts bleach per 1,000,000.

Manufactured to order...

All of our Medical Grade Mounting Solutions are manufactured to order by our partners in the United States. These are then air freighted to us before being hand inspected and assembled by our talented team of technicians at our headquarters in Hampshire, United Kingdom. This allows us to offer 1000’s of combinations on our products as well as bespoke design but at a much shorter lead time than our competitors who often rely on Far East manufacturing.
