+/- 90°

No

8.2Kg

75 x 75  
100 x 100

- Medical grade solution
- Monitor & keyboard combinations up to 8.2Kg
- Billet Aluminium construction
- Can be cleaned with "Hospital Grade" solutions (10,000 parts bleach per 1,000,000)

The ErgoMounts Ultra 500i Inverted Monitor & Keyboard Wall Track Workstation offers height, reach, tilt and swivel adjustment. Available configurations include compact non extended, single extended 280mm (11") arm or double extended 2 x 280mm (11") arms providing up to 600mm of extension from the 36" wall track. This combination monitor and keyboard arms create a space efficient, ergonomic wall mounted computer workstation with zero footprint.

Machined out of billet aluminium with a durable powder coat finish. This mount can support weights up to 8.2kg. Cables are managed internally on the underside of extension arms. A unique Delrin bearing system provides smooth motion and ergonomic adjustment. By suspending the monitor from the underside of the arm users are able to freely adjust its position to clear any potential obstacles on the wall.

When not in use the monitor and keyboard arms can be folded back on themselves and the keyboard tray flipped upwards to save further space.

This mount has been designed for use in healthcare environments and can be cleaned regularly with medical grade solutions (10,000 parts bleach per 1,000,000).

Optional extras can include CPU Holders, Scanner Brackets and Mouse Holders. Contact your nearest ErgoMounts representative for more information.

### Manufactured to order...

All of our Medical Grade Mounting Solutions are manufactured to order by our partners in the United States. These are then air freighted to us before being hand inspected and assembled by our talented team of technicians at our headquarters in Hampshire, United Kingdom. This allows us to offer 1000's of combinations of products as well as bespoke design but at a much shorter lead time than our competitors who often rely on Far East manufacturing.
